Production performance with **colour impact** for the office

WorkCentre[®] 7655/7665/7675

Productive, flexible and easy to use.

The Xerox WorkCentre 7655 / 7665 / 7675 multifunction systems can easily handle the output volumes needed for document-intensive environments. Add to that unrivaled, high impact colour, and you have the versatility to give your business a clear, competitive edge.

COLOUR

The impact of colour. With colour, your business will benefit from one of the most effective business tools available.

EASE OF USE

Ease of use, ease of management. Your department is instantly more efficient thanks to the many easy, yet advanced, user and management features.

COPY

Start with copying. All WorkCentre 7655 / 7665 / 7675 devices start with robust copy capability in black and white and brilliant colour. Security features and job-based accounting are built-in.

PRINT

Add network printing. Make your WorkCentre 7655 / 7665 / 7675 device a lot more productive by networking and adding affordable colour printing and scanning.

SCAN

FAX

Do it all. Build an integrated system that includes internet/network faxing, scanning and email capability. Add throughput and finishing options, customised network accounting solutions, and more.

EMAIL

FINISHING

Your processes simplified

- **Xerox Extensible Interface Platform (EIP)** technology – a web-based open platform – lets developers build unique solutions for specific business needs.
- **Store scanned documents directly on the device** for exact reprint later, while also retaining the flexibility to change document parameters before reprinting.
- **Scan to searchable PDF** format for universal compatibility and easy archiving, organising, searching and sharing.
- **Scan to Mailbox** stores files on the device's hard drive, where they can be printed and deleted or retrieved at a user's desktop.
- **Scan to Home** allows scanning to pre-assigned "home" destinations – such as an email address, network folder or FTP directory – for fast document routing at the push of a button.

Performance to increase productivity

Why crowd the office with multiple devices when one can meet all your needs? The WorkCentre 7655 / 7665 / 7675 multifunction systems have the features you use everyday and the power to be true multi-taskers.

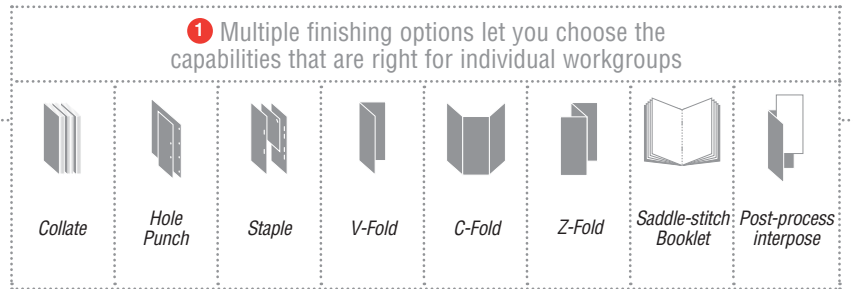

- Super-fast copy and print speeds up to 75 ppm enhance productivity regardless of job size or volume. Full colour copying and printing is fast – up to 50 ppm colour!
- The ability to scan colour documents at 50 ppm (80 ppm in black and white) allows your department to swiftly scan, retrieve, electronically store and distribute documents.
- Multi-tasking operation means multiple users can simultaneously perform different tasks – scan, copy, print, transmit faxes and manage the queue – a helpful feature in maximising business efficiency.
- Nothing gets noticed like colour! 2400 x 2400 dpi output resolution with 256 halftones gives your documents unmatched clarity and impact.

Keep the work flowing

You need a machine that works the way you do. The WorkCentre 7655 / 7665 / 7675 devices are packed with functionality and options meeting the needs of any environment.

- Started off with a digital copier and need more functionality? No problem. You can upgrade to a fully-featured advanced multifunction system.
- Optional scanning workflows include Scan to PC Desktop, and scan to searchable PDF, network file server, email, fax and mailboxes on the device. The new Scan to Home feature lets you scan to a secure personal directory.
- Improved scan export compression (MRC, JBIG2) reduces traffic on the network and speeds your documents to their destinations.
- Support for a wide range of paper and speciality media in weights up to 300 gsm, and custom sizes up to SRA3, so that whatever the application, you're ready to print.
- Extensive finishing options are available to increase your productivity, including the Light Production Finisher with Folder which adds 100-page stapling, C-Folding, Z-Folding, Booklet Making and post-process page inserting.

Large input capacity of up to 5,260 sheets

Add the impact of colour to important business documents without expensive outsourcing. Strategic colour usage gains readership, makes a stronger first impression, increases memory retention and boosts sales.

Outsourced quality produced in-house...

- Get unbelievable image quality with a resolution of 2400 x 2400 dpi and 256 halftones.
- Emulsion Aggregate High-Grade toner delivers a professional glossy finish on documents where impact is the key. Trickle Charge Development (a Xerox innovation) maintains high image quality throughout the job.

...and colour under control

- In mixed colour/black and white documents, you only pay for colour on pages that use colour.
- Regulate access to colour to control costs. Allocate colour-page limits by user, department, etc.
- Built-in reporting functions let you track how much colour you're using on all services – print, copy, scan, fax and email – making colour use decisions easier in the future.

Intuitive, bi-directional print drivers provide easy access to all output functions.

Easy from end to end

Running complex jobs doesn't have to be complicated. From the large touchscreen interface and bi-directional print drivers to simple job-based reporting and accounting tools, the WorkCentre 7655 / 7665 / 7675 devices are designed with reliability and ease of use in mind.

- Installation is quick and easy. Network administrators can "clone" the configuration for simple installation of multiple units.
- User intervention is kept to a minimum. Two black toner cartridges means toner lasts longer and can be replaced on the fly. And SMart Kit™ technology ensures the device is kept up and running.
- Automatic Information Forwarding automatically enables the collection and sending of reports to Xerox for quicker and more effective service.
- Advanced device management software makes it easier to ensure your system is running smoothly.
- Xerox Standard Accounting software provides job-based accounting features for greater cost control of printing, copying, faxing and scanning.
- The Smart eSolutions system simplifies ownership, with hands-free, hassle-free, secure administration of Xerox devices for automatic meter reads.

Security

Robust security features let you restrict access, manage usage and ensure confidentiality.

- **Network Authentication** restricts access to scan, email and network fax features by validating user names and passwords prior to use. With Audit Log capabilities you'll know who sent what and when.
- **Secure Print** prevents unauthorised viewing by holding jobs in the queue until a PIN is entered, releasing documents to print. Secure Print job submission can utilise IPsec.
- **Image Overwrite** eradicates data by overwriting the disk surface with patterns of data.
- **Embedded Fax** prevents unauthorised device access via the fax subsystem. There is complete separation of the fax telephone line and the network connection.
- **Device Access Password Protection** ensures administrative set-up screen and remote network settings cannot be viewed or altered without authentication.
- **IP Address Restriction (IP Filtering)** controls communications with specific network clients. Operates in IPv4 and IPv6 environments.
- **Secure Scan** transmits files using HTTPS (SSL).
- **Secure Device Administration** with HTTPS is enabled through CentreWare.
- **802.1x Port Based Network Access Control** ensures that devices that are connected to the network have the proper authorisation.
- **Secure Access Unified ID System** enables users to log-in at the device with their magnetic or proximity ID card for secure access to functions that need to be tracked for accounting or regulatory requirements.

Imagine the possibilities...

if you could make your multifunction printer work the way you work

The world is changing. There's constant pressure to do more with fewer resources. You know your business better than anyone. Now your multifunction system can adapt to fit the way you work, not the other way around.

Your Xerox multifunction system is now more productive, and your work processes are streamlined. Menus and languages specific to your business or workgroup, such as "fax to accounts payable" or "submit to claims department" can appear on the touch screen of your multifunction system. Xerox Extensible Interface Platform, or EIP, is at the heart of this. It enables a variety of applications that extends the power of your multifunction system by allowing you to securely find, save, print and share critical information with just a few easy steps right on your system's touch screen.

The possibilities are endless.

Potential EIP applications

Connect with applications that make your work easier **with EIP**

Access and print information without the use of a computer.

Need your company's latest price list or a brochure on this week's hottest-selling product? Simply use the touch screen on your multifunction system to browse an online repository such as Xerox DocuShare®, Microsoft SharePoint® or Windows folders, select the document, and print it. No need to keep filing cabinets filled with material that quickly becomes outdated.

Simply scan information and store it exactly where you want it.

Transform hard copy forms into digital information with just a few simple steps. A new patient at a doctor's office fills out a medical history form, the receptionist securely scans the form, previews a thumbnail image on the multifunction system's touch screen and then sends the form to a folder named Patient Records. EIP-enabled applications make it possible.

Control costs with user-friendly accounting.

With Xerox accounting solutions you can set limits by individual and by function. Track multifunction system usage through a printed report, file download, or integration with a partner accounting solution.

Conveniently and securely access your WorkCentre with a simple swipe of your ID card.

Xerox makes it easy for you to ensure that only authorised users access your WorkCentre devices by requiring passwords or access cards. Once authenticated, you can access EIP-enabled applications that are personalised to meet your needs.

Simplify the process for complex fax distributions.

Send and receive faxes even when a fax board has not been installed in a multifunction system. Faxes can be scanned in at the multifunction system or submitted from a user's desktop using a fax print driver. Faxes can be tracked and audited to ensure regulatory compliance.

Connect with a variety of advanced partner solutions created with your business in mind.

Xerox EIP enables an array of Alliance Partner solutions that extend the value of the WorkCentre 7655 / 7665 / 7675 series with advanced accounting, faxing and scanning capabilities.

It's that **easy.**

Configurations	WorkCentre 7655	WorkCentre 7665	WorkCentre 7675
Speed	Up to 55 ppm black and white / 40 ppm colour	Up to 65 ppm black and white / 50 ppm colour	Up to 75 ppm black and white / 50 ppm colour
Duty Cycle	200,000 pages / month	300,000 pages / month	300,000 pages / month
Base Device Memory	1 GB		
Paper Handling	Duplex Automatic Document Feeder: 250 sheets Paper input Standard Trays 1–2: 500 sheets each; Size: Custom sizes up to A3; Tray 3: 870 sheets; Size: A4; Tray 4: 1,140 sheets; Size: A4 Bypass Tray (Tray 5): 250 sheets; Size: Custom sizes up to SRA3; Total: 3,260 sheets		
	Optional High Capacity Feeder: 2,000 sheets; Size: A4; Total: 5,260 sheets		
Finishing options	Simple Catch Tray; Offset Catch Tray (OCT); Advanced Finisher: 500-sheet top tray, 3,000-sheet stacker tray, 2/4-hole punching and 50-sheet multiposition stapling; Professional Finisher with Booklet Maker: 500-sheet top tray, 1,500-sheet stacker tray, 2/4-hole punching, 50-sheet multiposition stapling, saddle-stitch booklet maker, Light Production Finisher: 500-sheet top tray, 2,000-sheet stacker tray, hole punching, 100-sheet multiposition stapling, saddle-stitch booklet maker, V-folding, 200-sheet post-process interposer; Light Production Finisher with Folder: 500-sheet top tray, 2,000-sheet stacker tray, hole punching, 100-sheet multiposition stapling, saddle-stitch booklet maker, V-, C-, Z-folding, 200-sheet post-process interposer; Convenience Stapler: 50-sheet stapling		
Security	Fax Security, Secure Print, Audit Log, Secure Workflows, 802.1x, SNMP V3, Network Authentication, Device Access Password Protection, IP Filtering, Disk Image Overwrite		
Accounting	Internal Auditor, Xerox Standard Accounting (Copy, Print, Scan, Fax, Email), Additional Job Based Accounting Options available		
Copy	First-page-out time: As fast as 5.5 seconds black and white / 8.9 seconds colour		
Output resolution	2400 x 2400 dpi		
Hard drive	40 GB (minimum)		
Copy features	Automatic two-sided, auto reduction and enlargement (25%–400%), auto paper select, auto tray switching, mixed-sized originals, booklet creation, image quality enhancements, Build Job, book copying / two-sided book copying, auto colour selection, transparencies, multi-up, invert image, covers, annotation and Bates™ stamping (with colour capability), inserts and tab copying, sample set and job storage, heavy-weight paper		
Print	Processor / PDL Support: 1.8 GHz Athlon™ / PCL® 5c, PCL 6 emulation, PostScript® 3™ language support, PDF v1.5		
Connectivity	10/100 Base-TX Ethernet		
Output resolution	2400 x 2400 dpi		
Hard drive	80 GB (minimum)		
Print features	Delay, Sample and Secure Print, simultaneous rip, receive, Program Ahead, queue-process and transmit, Bi-directional print drivers, Page-level programming, Tab printing, Embedded Web Server for remote control/monitor/setup, Job monitoring at device and at desktop		
Fax	Fax options: Walk-up Fax (one-line and two-line options), LAN Fax, Internet Fax, Network Server Fax		
Scan	Scan speed (with DADF): 80 ppm black and white / 50 ppm colour		
Scan options	Network scanning, Scan to email, Scan to PC Desktop®, Scan to Mailbox, Scan to searchable PDF, PDF/A and XPS®		
Other Options	Foreign Device Interface, Xerox Copier Assistant, USB 2.0, Xerox Secure Access Unified ID System
